

What do teams say?

"My point is this: you can never know or expect what may happen in your future. So, you might as well direct it towards particular interests in your life. If vintage and classic cars are on that list, you might not find a more fun way to get into the hobby or industry than through the X-Cup program."

Greg Cunningham - Spirit Cup Winner!

"Having 10 Great Races under my belt now doesn't make any of them less special from one to the next. If anything, it makes it harder to stay away. Each one now has its own experiences of places and people, triumph, and challenges, but I wouldn't have it any other way. I have never regretted getting involved with the Great Race, but only when I can't be there. When you participate in the Great Race, it not only becomes something you do or have done, but it becomes a part of who you are."

Chad Nelson - X-Cup Champion

What is Great Race?

The Great Race is a cross-country rally that pits driver/navigator teams against the clock and against each other. The route changes each year and has covered all but one of the lower 48 states. Entrants participate in a timed, controlled speed, endurance competition over scenic public highways and roads. The scores for each team are the result of the team's ability to follow all designated course instructions precisely.

Great Race has been run for over 30 years, with the first Great Race the legendary 1908 New York to Paris Race. Over 100 teams have participated annually in recent years.

What is X-Cup?

The X-Cup division is designed for student teams. Drivers must be at least 21 and less than 25 years old at the start of the Race. Navigators must be younger than 22 at the start. There is a provision in the Regulations for younger teams to have an adult (often the faculty advisor) as driver.

What Vehicles Qualify?

Antique & Vintage Cars, Trucks, and Motorcycles with body and drive train built in 1972 and earlier can qualify.

What About Younger Teams?

Great Race is a well organized competition with Safety the primary concern. Speed or aggressive driving is a sure way to lose the competition. It takes precise teamwork to win!
